DRINKING WATER TESTING

***Note:** If samples are to be used for drinking water compliance purposes, the laboratory must be able to submit the results to NHDES's Drinking Water and Groundwater Bureau (DWGB) electronically. Not all the labs on this list are able to supply compliance samples to DWGB in this format. Use the list entitled NH Accredited Drinking Water Labs that Submit Results Electronically at <http://des.nh.gov/organization/divisions/water/dwgb/documents/accredited-labs-esamples.pdf> if you intend to use the samples for drinking water compliance purposes. Contact the DWGB at dwgbinfo@des.nh.gov if you have any questions concerning this requirement.

Method accreditation does not imply acceptable for compliance testing. Laboratory is required to use EPA approved methods where required by regulation.
